

GPS4 Magnet Mount

Quick Installation Guide

Receiver: Part # **GPS-MDL**

Cable Part # **GPS4-CBL**

1 Install

- 1 Determine the mounting location for the GPS receiver. For best signal reception, place it close to the windshield edge. If mounted horizontally, the domed shell of the receiver housing faces the sky. If mounted vertically, the shell must face toward the front windshield.

Important

Ensure the location selected to mount the GPS receiver (either concealed or safe surface mount) allows for the running of wiring towards the DVR.

- 2 Mount the GPS magnet mount on a ferrous metal surface.
- 3 Attach the GPS connector to the GPS receiver port, as shown in Figure 1 or Figure 2.

On the MX-HD and DX-HD DVRs, connect the GPS to the GPS receiver port on the Smart-Link module. See Figure 1.

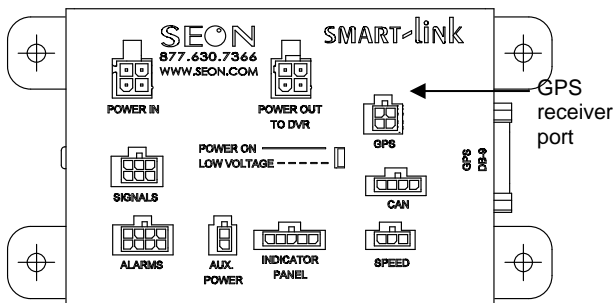

Figure 1

On all other DVRs, the port is on the DVR's back panel. See Figure 2.

GPS receiver port on TL4

2 Configure GPS

Depending on customer requirements and the hardware you're working with, adjust the following DVR settings where applicable:

- **GPS Time** – configure the DVR to automatically detect time from satellites, and select your time zone.
- **Speed** – use GPS readings to calculate and report vehicle speed.
- **Display** – report GPS time and location coordinates in video playback.
- **Geo-fencing** – set a fencing alarm and the related coordinates.

For specific instructions, see the Installation documentation for your DVR.

Service and Warranty

If your GPS4 Magnet Mount is to be returned to Seon Design for service, please call toll free 1-877-630-7366, or 604-941-0880, provide the model and/or serial number of your unit, and ask for a Return Authorization (RA) number. An RA number allows the Service Technicians to better track your product when it comes in for service. Please show the RA number on the outside of the package. **ANY PRODUCT SENT TO SEON DESIGN WITHOUT AN RA NUMBER MAY BE REFUSED.**

Please refer to the Warranty form provided with your product to review the terms of warranty service, contact and shipping information, as well as other important issues regarding the service and operation of your product.
