Commander

## v5.28 Release Notes

The Safe Fleet product team is happy to announce the release of Commander v5.28. This new version includes some new features and other improvements. Here's what's new in this version.

Commander New Features

Benefit from the New Daily Dashboard Report

Customers have the opportunity to subscribe to email-based Dashboard Reports. This new report type provides users with the information available within each widget in the dashboard (General, Alarms, Health and Downloads) as plain text via email.

Users also have the ability to select which widgets will be included in the report and whether or not the corresponding information will be summarized or presented in more detail, as it appears when the widget panels are expanded.

Duplicate Archive Requests and Save Time

Archive Manager incorporates the ability to duplicate archive requests with the new **Duplicate** button. When clicked, a new archive request is created. Although duplicates are equivalent to the original existing archives, users can modify the parameters of the new requests to match their needs before these are submitted. This process saves time under many circumstances that require creating almost identical requests for slightly different purposes.

Executed Time	Cameras	Download Time	Resolution	Actions

Set Fleet Overdue Thresholds

Users with administration capabilities can now easily modify the threshold under which fleet vehicles will be considered overdue. To perform this task, a new field is provided within the Fleet dialog.

Users | **Fleet** | Permissions | Drivers | Groups | Vehicle Types | Vehicles | Zones | Video Categories | Cellular settings

Fleet ID : 0227
Default Zone : Surrey
Max Active Users : 100
Max Active Vehicles : 500
* Distance Unit : Km
* Language : English
Time Zone : (GMT-8:00) America/Vancouver
Video Archive Folder :
* Vehicle is overdue after # (hours) : 2200
* Purge deleted video archive task (days) : 3
Fleet Speed Limit : 50
Fan Requiring Attention Events : ☑

Commander Improvements

Have Numerically Named Vehicles Properly Ordered

Users can now list vehicles by numerically ordered Vehicle ID by simply clicking the Vehicle ID column header in the Vehicles dialog within Fleet Settings.

	Users	Fleet	Permissions	Drivers	Groups	Vehicle Types	**Vehicles**	Zones	Video Categories	Cellular settings

	Vehicle ID ⬍	Vehicle Type	Vehicle Group	Asset Collectio	DVR Associated	DVR Type
	Bus	⌄	⌄		⌄	⌄
☐	Bus01	Full Bus	Fieldtesting	13178898-da4d-	No	
☐	bus 1	Full Bus	Fieldtesting	f9b41d82-d18b-‹	No	
☐	Bus 01	Full Bus	Fieldtesting	a53bb62c-e569-	No	
☐	bus 04	Full Bus	Fieldtesting	47232b44-7ee7-	No	
☐	Bus 00044E	Full Bus	GroupDMP	bd469063-d691-	No	MV7001
☐	Bus 00044F	Full Bus	GroupDMP	9b09fdea-7b1c-‹	Yes	MV7001
☐	Bus 00045A	Full Bus	GroupDMP	8d8d7ea3-8a8a-	No	

View Complete Archive IDs

For user convenience, Commander's Archive Manager displays the complete Archive IDs in the corresponding column. These are entirely visible whenever the column is sufficiently widened on the user's computer screen.

	Archive Manager		Recurring Archive							

	ID ⬍	Vehicle	Group	Category	Type	Priority	Requested Time	Start Time	End Time	Cameras
