

vMax 5.21 is released on December 16th, 2018. This version introduces important new features and other relevant improvements.

NEW FEATURES

vMax Live

Occupant Types

A new column displays **Types** of occupants in the Occupant List table. A different icon is assigned to each Type.

Emergency Contact

Two more columns holding emergency **Contact Name** and **Contact Phone** have been added to the Occupant List.

Occupant List								
<div> <div>Export</div> <div>Print</div> </div>								
Occupant List								
Type	Student ID	Name	Badge Number	Contact Name	Contact Phone	Pick Up Stop	Pick Up Time	
	10103045	John Brown	10103045			38.774342, -85.332047	11:25 (PST)	
	20181131	Rocha Shayla	20201131	Tom Rocha	6045556677	38.780861, -85.385078	10:27 (PST)	

The emergency contact information is also available in the **Full Ridership** reports.

Full Ridership Report List - Date 12/11/2018 - 11:53 (PST)

Search Criteria	
From	12/10/2018 - 11:53 (PST)
To	12/11/2018 - 11:53 (PST)

406 Records Found.

Route ID	Student ID	Card ID	Student Name	Contact Name	Contact Phone	Vehicle ID	Driver ID	Date/Time (PST)	Event	Stop

	20181132	20201132	Money	Stoli	6045046879	DXHD-34		12/11/2018 11:52 (PST)	Drop off	38.739231, -85.380226
	20181136	20201136	Cryer	Cryer	5417543274	DXHD-34		12/11/2018 11:32 (PST)	Pick up	38.780861, -85.385078

IMPROVEMENTS

Path

Data Tools

Student Upload compatibility with mapped files has been improved. Compatible sources now include csv, txt and tsv files.

BUG FIXES

vMax Commander

NX16 Archives

When archiving video from NX16 recorders, no subfolders are created to store the files.
